Bus Overturns: 1 Serious Injury, Dozens Of Minor Injuries

(AP) A charter bus carrying college students to three Virginia campuses near the close of the holiday weekend overturned Sunday evening, leaving one person seriously injured and 35 others aboard with minor injuries, police said. Virginia State Police spokeswoman Corinne Geller told The Associated Press there were no confirmed fatalities after the bus overturned on an exit ramp of the Powhite Parkway in North Chesterfield County just south of Richmond, the state capital. State Police said in a statement that the driver lost control on a curve on the ramp and the bus overturned on its side. The bus, operated by Abbott Bus Lines of Roanoke, had 50 passengers and the driver on board when the crash occurred about 7:15 p.m. Sunday, a police statement released by Geller said. Approximately 34 of the passengers and the driver were taken to Richmond area hospitals to be treated for minor injuries while one passenger was treated for serious injuries, authorities said. The passengers were mainly students picked up in Richmond who were returning to campuses of the University of Virginia, Virginia Tech and Radford University elsewhere in the state, police said. The bus had initially picked the students up at Virginia Commonwealth University in Richmond and had as its first destination the University of Virginia in Charlottesville, according to the police statement. The statement identified the bus driver as Thomas B. Chidester, 58, of Salem, and said he has been charged with reckless driving by State Police. He could not be immediately located for comment.

International News – Significant Events

Obama Visits Paris Attack Site, Pays Tribute to Victims

(Reuters) President Barack Obama laid a single rose at a memorial for the victims of the Paris attacks on Monday shortly after arriving in the city, visiting the Bataclan, the concert hall where the deadliest attacks took place during the onslaught some two weeks ago. Obama, who is in town for international talks to curb climate change, was joined at the site by French President Francois Hollande not long after Air Force One touched down around midnight local time. After solemnly placing the rose among the flowers and candles at the makeshift memorial, Obama stood silently in tribute, his head bowed and his hands clasped in front of him. Afterwards he walked away with his arms around Hollande and Paris Mayor Anne Hidalgo, who was also present. He did not make remarks. Obama has made a concerted effort to show U.S. solidarity with France after the Nov. 13 attacks, which killed 130 people. He and Hollande agreed during a meeting in Washington last week to ramp up military operations against Islamic State in Syria and Iraq and coordinate intelligence on domestic threats. By visiting the memorial so soon after his arrival in Paris, Obama signaled the importance he placed on continuing to show support to the people of France. The surprise nighttime visit did not appear on Obama's public schedule. Obama is scheduled to stay in Paris until Tuesday for talks to hash out an agreement with world leaders to fight global warming.

SITUATION SUMMARY

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought.

Weather of Concern

- Freeze Warnings in effect through this morning for the San Francisco Bay Area, San Joaquin Valley, [and valley areas in Santa Barbara and Ventura Counties.](#)
- A stronger storm over the western Pacific is forecast to reach the West Coast by this Thursday. This storm may produce moderate snow amounts, with lighter rain and snow for lower elevations. Gusty winds are also expected by Thursday as this storm approaches.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

A period of light rain and snow will be possible during the morning hours today as a weak front moves across the region. Mid to late week a strong storm system may bring wind and rain to the area.

Medford Weather:

Aside from wintry conditions this morning, the front will produce only light precipitation and little else as it pushes headfirst into the blocking ridge overhead. This system will move the ridge away, allowing the preferred storm track to return to the Pacific Northwest. The first of these storms is due Tuesday afternoon and evening, bringing a round of rain and snow to the area, followed by showers into Wednesday. A bigger, and much stronger, storm event is forecast for late Wednesday night into Thursday.

Reno Weather:

High pressure will result in valley inversions and deteriorating air quality through Wednesday. A modest winter storm will bring strong gusty winds and mountain snow late Thursday and Thursday night. The main storm track will stay north for next weekend with generally dry conditions and seasonably cool temperatures.

San Francisco Weather:

A weak frontal system may produce light rain today, mainly near the coast and in the North Bay. Otherwise dry weather is expected through Wednesday along with warmer temperatures. A stronger Pacific storm will likely bring rain and gusty winds to the region on Thursday.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Another cold morning is expected today. A few showers are possible through Wednesday. The next storm system arrives Thursday with wet and windy weather.

Hanford Weather:

Low pressure over the Great Basin will continue to move east out of the central California region overnight. High pressure will then prevail through Wednesday before the next Pacific weather system moves into California on Thursday.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

Temperatures will warm to above normal by midweek as high pressure builds aloft and offshore flow continues. A trough of low pressure will bring cooling and a chance of rain late in the week, mainly north of Point Conception. Warm and dry weather will likely return for the weekend as a ridge of high pressure moves into place and offshore flow redevelops.

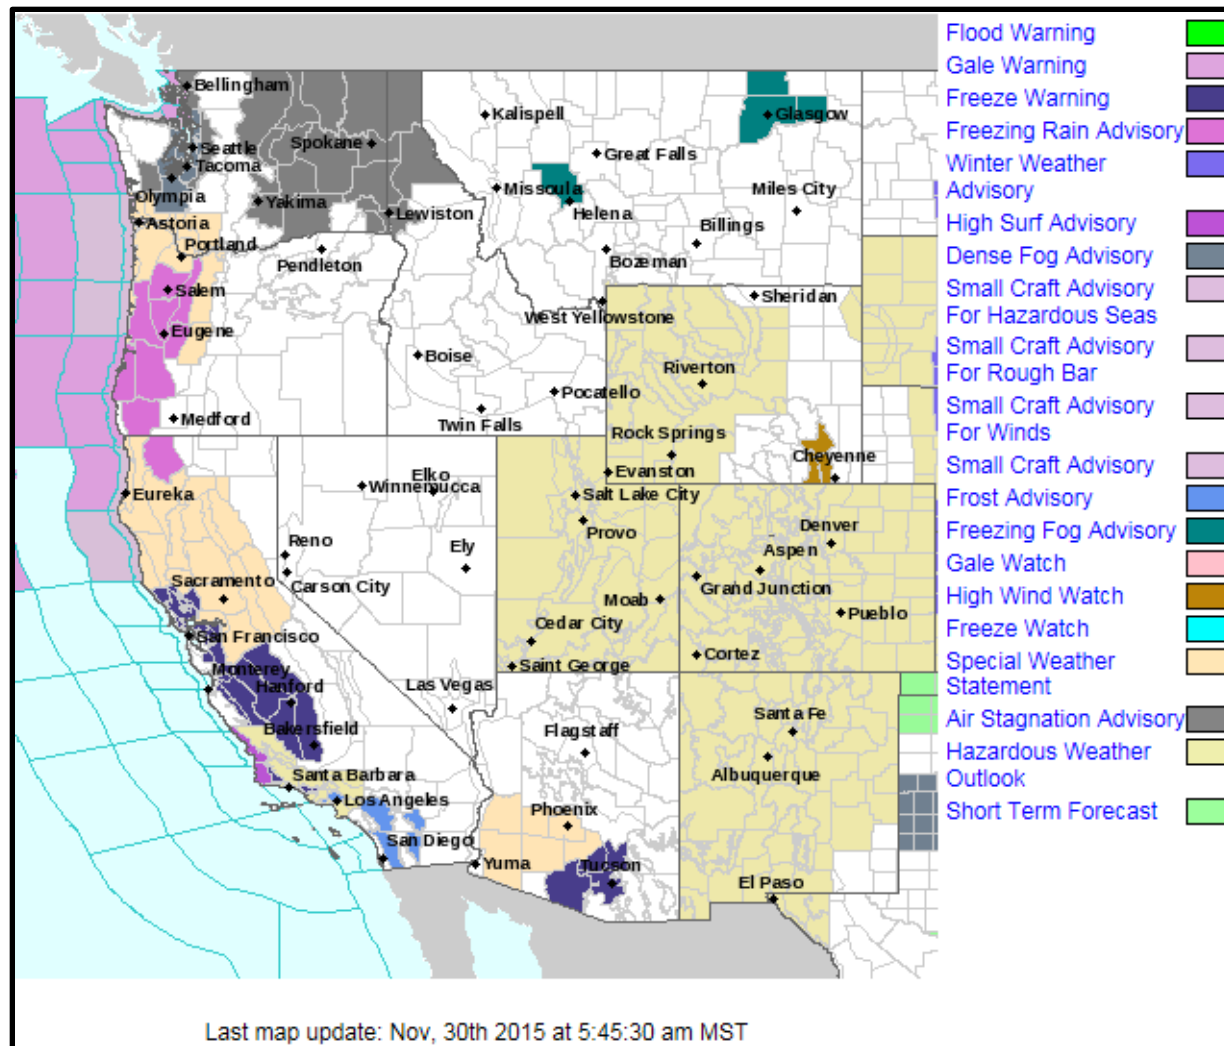

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

Gradually warmer through Wednesday, although the nights will continue to be quite cool with frost in the valleys and portions of the deserts. Cooler conditions expected late in the work week with gusty westerly winds and a slight chance for precipitation Thursday night through Friday. Then dry and warmer again for next weekend as high pressure rebuilds.

Southeast California Weather:

Below normal temperatures will continue today and Tuesday with some lower desert spots dipping below freezing during the morning hours. A warming trend is expected Wednesday and Thursday as a ridge of high pressure builds over the region. Somewhat cooler conditions are anticipated next weekend but still near normal. Breezy conditions can be expected from time to time as well.

STATE WEATHER MAP

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

FREEZE WARNING FROM 11 PM THIS EVENING TO 9 AM PST MONDAY

The national weather service in San Francisco has issued a freeze warning for inland valley and mountain locations...Which is in effect from 11 pm this evening to 9 am pst Monday.

- Temperatures...Lows will range from 26 to 32 for most locations.
- Impacts...Potential health impacts for those who are outside during overnight hours. Temperature sensitive plants could be severely impacted.

PRECAUTIONARY/PREPAREDNESS ACTIONS

A FREEZE WARNING MEANS SUB-FREEZING TEMPERATURES ARE IMMINENT OR HIGHLY LIKELY. THESE CONDITIONS WILL KILL CROPS AND OTHER SENSITIVE VEGETATION.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC every other Monday at 1100 hours.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:
